Via Leone da Perego, 26
Legnano (Mi) - Italy

Hi, my name is Riccardo Landoni. I live in Legnano, a city near Milan, and for four years I worked as a Graphic Designer and Motion Designer at a communications agency with clients primarily in Milan. In 2022, I resumed my studies, shifting my focus from traditional 2D graphics to the world of 3D graphics, attending the three-year degree program in Creative Technologies at NABA - Nuova Accademia delle Belle Arti in Milan. During these years of study, I gained in-depth knowledge of the 3D pipeline, specializing in 3D modeling and environmental design. Despite this, I continue to work as a freelance Graphic Designer and Motion Designer.
